New Electronics

22 MARCH 2005

RADIO FOR THE WORLD

Say goodbye to the crackle, hiss and pop of medium and long waveband radio broadcasts. Say hallo to digital quality radio reception and maybe the return of Radio Luxembourg!

SPECIAL AUTOMOTIVE ELECTRONICS SUPPLEMENT IN THIS ISSUE

Special Report:

Emerging Markets

Plus: • Mixing oil and water in an SoC • Debugging directions • Does virtual prototyping mean unreal time development? • What's LXI all about? • Integration cuts OEO conversion cost • Filling in the boxes on a clean sheet of paper needs discipline.

New Electronics

Open for business!

With 20% of the world's population, demand for consumer electronics devices in China is growing rapidly. The country not only has a thirst for technology, but also the spending power to back it up.
